

Vacancies – Manufacturing

NGF EUROPE Limited currently has vacancies for Trainee Production Processor and Production Services roles.

Contracts are likely to be for a period of 6 months and Randstad Work Solutions will assist in the selection process. All candidates must be prepared to take part in a selection process, which may include aptitude tests.

Working in an environment whereby safety is paramount, Trainee Production Processor responsibilities include setting, operating and controlling process plant/machinery and taking corrective actions as necessary to ensure products are made to the required quality specifications, schedules and targeted efficiencies. Successful candidates will be required to work both on an individual basis and as a member of a team/s, ensuring plant operations are both efficient and effective, such that set targets, standards and continuous process improvements are achieved whilst maintaining individual responsibility and accountability; adopting the principles of TPM and 5S. The role involves inspecting, testing and recording measurements on samples of materials, products and processes so as to maintain statistical process control and assuring compliance with specifications.

Production Services roles involve a variety of warehouse related tasks and plant cleaning.

Candidates will ideally have come from a manufacturing background, working to high levels of safety and quality in a continuous process environment; demonstrate excellent team working skills allied with effective problem solving capabilities. Candidates will require manual dexterity, be numerate, literate and have computer experience. In addition must be available to work a flexible shift pattern throughout the calendar week.

Applications should be made by CV by email or by hand delivery only, postal applications will not be accepted to:
